

STARAMBA comments on liquidity situation and distances itself from false reports in press and Internet forums

Berlin, 13 December 2018

STARAMBA SE (XETRA: 99SC) makes it clear that the corporation is distancing itself from obvious false reports that are disseminated in the press and social media about the company. In its press release of December 3, 2018, as well as in publicly available interviews, which can also be downloaded from the company's website at www.staramba.com, STARAMBA informed the public that there were no liquidity bottlenecks. The financing of the company is secured. STARAMBA has stressed several times that the company is doing well.

"With this announcement, we are reacting to the communication with concerned shareholders who have sold all their shares due to the sometimes fierce reactions in the social media and the press and are now regretting this. We would like to point out once again that we have already reassured on several occasions that the company is doing well financially and that there is no reason to doubt the continuation of business operations. We distinguish ourselves from all kinds of false reports," says Christian Daudert, CEO of STARAMBA SE.

Staramba SE (ISIN DE000A1K03W5) - General Standard/Regulated Market

About Staramba SE

The Staramba SE from Berlin (XETRA: 99SC) is a virtual reality (VR) pioneer with unique hardware and software expertise. The flagship project is the development of the world's first social VR network with lifelike avatars STARAMBA.spaces: a new virtual world in which fans can interact up close with international stars from sport, music and entertainment. Photorealistic avatars that do not exist in any other platform and the integration of social media channels make STARAMBA.spaces a unique VR experience. With STARAMBA.token, the company issues its own crypto currency for the platform. It serves as ingame currency and for simplified billing of licenses in STARAMBA.spaces. The VR pioneer has also built the world's most comprehensive database of photorealistic 3D models of top international stars, which are sold via its own online shop. These include footballers from top teams such as the DFB-Elf, FC Bayern Munich and Real Madrid or superstars of the NFL and WWE. Another business area is the 3D-INSTAGRAM® photogrammetry scanner developed by Staramba. This enables certified partners to scan consumers and generate photorealistic 3D avatars for a wide variety of applications. The use of such avatars will substantially change the economy in the future. Staramba SE is listed in the General Standard of the Frankfurt Stock Exchange.

Forward-looking statements

This release contains forward-looking statements based on current experience, estimates and projections of the management and currently available information. They are not guarantees of future performance. Various known and unknown risks, uncertainties and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here. Many factors could cause the actual results, performance or achievements of Staramba to be materially different from those that may be expressed or implied by such statements. Forward-looking statements therefore speak only as of the date they are made. Staramba does not assume any obligation to update the forward-looking statements contained in this release or to conform them to future events or developments.
