

STARAMBA SE: Pre-Sale of the in-house crypto currency STARAMBA.Token sold out

Berlin, 13 June 2018

STARAMBA SE (XETRA: 99SC) has completed the pre-sale phase of the in-house crypto currency STARAMBA.Token extremely successfully and faster than expected. Within only two days, the first tranche for institutional investors was sold out with a total of 100 million tokens.

From the public launch of the STARAMBA.Token on June 20, 2018, another 450 million tokens will be placed. In the run-up to this so-called public sale, more than 35,000 potential buyers have already registered on www.staramba.com. Fans can purchase the first limited products of STARAMBA.spaces as early as August with the tokens purchased at discounted conditions.

"The Initial Token Sale is also the starting signal for our most important future project STARAMBA.spaces. With the initial token sale we receive the financial means for the faster and larger development of STARAMBA.spaces. For STARAMBA, the successfully completed pre-sale is a sign of confidence on the part of institutional investors, not only regarding the potential of STARAMBA.spaces, but also for the trustworthiness of our business model. We are now all the more looking forward to the start of the public sale, where all fans can now also secure their tokens," says Christian Daudert, Chairman of the Board of Directors and Managing Director of STARAMBA SE.

Staramba SE (ISIN DE000A1K03W5) - General Standard/Regulated Market

About Staramba SE

The Staramba SE from Berlin (XETRA: 99SC) is a virtual reality (VR) pioneer with unique hardware and software expertise. The flagship project is the development of the world's first social VR network with lifelike avatars STARAMBA.spaces: a new virtual world in which fans can interact up close with international stars from sport, music and entertainment. Photorealistic avatars that do not exist in any other platform and the integration of social media channels make STARAMBA.spaces a unique VR experience. The VR pioneer has also built the world's most comprehensive database of photorealistic 3D models of top international stars, which are sold via its own online shop. These include footballers from top teams such as the DFB-Elf, FC Bayern Munich and Real Madrid or superstars of the NFL and WWE. Another business area is the 3D-INSTAGRAM[®] photogrammetry scanner developed by Staramba. This enables certified partners to scan consumers and generate photorealistic 3D avatars for a wide variety of applications. The use of such avatars will substantially change the economy in the future. Staramba has also announced its own cryptocurrency STARAMBA.Token, which has the potential to revolutionize the global licensing industry. In a first step STARAMBA.Token will be used within STARAMBA.spaces. Staramba SE is listed in the General Standard of the Frankfurt Stock Exchange.

Forward-looking statements

This release contains forward-looking statements based on current experience, estimates and projections of the management and currently available information. They are not guarantees of future performance. Various known and unknown risks, uncertainties and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here. Many factors could cause the actual results, performance or achievements of Staramba to be materially different from those that may be expressed or implied by such statements. Forward-looking statements therefore speak only as of the date they are made. Staramba does not assume any obligation to update the forward-looking statements contained in this release or to conform them to future events or developments.
